

Autism Spectrum Assessment Program *at Reinforcement Unlimited*

What Documents are Necessary for My Child's Evaluation?

Thank you for choosing us to conduct the comprehensive evaluation of your child. In order for us to provide you with the most accurate and complete evaluation we must have access to the developmental, treatment, medical, and educational history of your child. Without access to this information the diagnostic process is significantly restricted. The following information needs to be provided prior to the first actual testing session with your child in order for us to be better able to select appropriate testing options for that first session. Releases are included in this packet to aid in gathering this type of information.

Required:

- Reinforcement Unlimited's** Intake Form
- HIPPA Notice - signed
- Medicaid Understanding Form - signed
- Authorization to Evaluate Form - signed
- Financial Information Form - signed
- Release(s) of Medical Records (if you wish us to contact others or request information from others on your behalf)

If your child is receiving Special Education Services:

- The Current IEP Document
- The Eligibility Report
- All Evaluation Reports
- Information from regular education curricular areas regarding behavior and academic performance

Private evaluations, including:

- Psychological – Psychiatric
- Neurological
- Therapy: Speech, Occupational, Physical
- Progress report/Documentation of goals/progress/status from therapies provided by private provider.
- Other medical reports:
 - Birth records pertaining to complications during pregnancy or after birth
 - Records of last regular visit with primary physician/pediatrician
 - Records of visits with specialists (neurology, ear-nose-throat, gastroenterology, orthopedics, developmental pediatrician, ophthalmology, psychiatry etc.)
 - Current hearing and vision status
 - Records of current medications
 - Records of past medications
 - Records of illness, surgeries, accidents and hospitalizations

If your child has received specialized therapies, such as ABA/VBA or other therapies, we need to review summaries of those therapies.

We always appreciate the effort that it takes to organize, track, and provide all this information. We will be happy to make copies at the clinic of any materials that you bring with you.

If you have any questions regarding the evaluation process or the information contained in this handout please contact us. Thank you!
